

POLAND AWAITS ONLY A LEADER

Workingmen Are Also Determined That They
Work But Eight Hours A Day.

LAND OWNERS TO HAVE A VOICE

In The Government Of All The Russias As Is Now Ar-
ranged For By Witte--Witte Selects
Cabinet.

(SPECIAL BY SCRIPTS-M'RAE.)
London, Nov. 14.—A dispatch from
St. Petersburg states that another
strike proclamation was issued in re-
ply to the government's coercion policy
in Poland.

Workmen Meet.
St. Petersburg, Nov. 14.—A work-
men's meeting today decided to de-
mand an eight-hour day and to use
violence if necessary.

Witte's Cabinet.
St. Petersburg, Nov. 14.—The sec-
ond session of Count de Witte's cab-
inet was held Monday afternoon. One
of the matters under consideration
was the project for placing the coun-
cil of the empire, the upper house of
the national assembly, to a certain ex-
tent on an elective basis.

The project, as elaborated, provides
for the representation of land owners,
orthodox, non-conformist and non-
Christian clergy and boerse commit-
tees. Ten representatives each are to
be chosen for five years by owners of
over 5,000 acres, the orthodox and the
non-conformist clergy, and six by the
boerse committees. The number to be
chosen by the non-Christian clergy has
not yet been decided.

Thus about one-quarter of the mem-
bership of the council of the empire,
which hitherto has been entirely ap-
pointive, will be chosen on an elective
basis.

Will Remit \$13,000,000 Taxes.
The council of the empire decided
to remit a portion of the land pay-
ments due next year by the peasants
in the provinces affected by the fam-
ine. The peasants, since their eman-
cipation in 1861, have been paying in-
stallments on lands allotted to them.
The council also decided to remit en-
tirely the payments for 1906 due on
land held by peasants killed during the
war. The amount remitted totals
\$13,000,000.

In addition to increasing the pay of
the rank and file of the army, the war
department has decided to reduce the
term of service by one year. The
present pay of the infantry is 11 cents
per month and the cavalry 14 cents
per month.

The fears of the wholesale pillage
and murder of the Jews and intelligenc-
ia by the "Black Hundred" have not
entirely disappeared, although the

strictest precautions have been taken
against probable outbreaks. Two stu-
dents were beaten to death near the
Obvorny canal, three house porters
were murdered at their doors, and
many domestic servants left their
work, announcing to their mistresses
that labor was no longer necessary, as
now everybody was on an equality,
having become "citizens" and would
receive government pensions.

Demand Eight-Hour Day.
As the next step in their program
the social democrats have decided to
attempt the enforcement of an eight-
hour day in all factories of St. Peters-
burg. The workmen in a number of
big factories have already resolved to
work only eight hours for their pres-
ent pay and to cease work entirely if
the employers attempt to enforce the
old scale.

Disquieting reports of the progress
of the agrarian disorders were receiv-
ed. The military authorities are rush-
ing troops and machine guns into the
affected areas.

It is reported that 24,000 Georgians,
armed with modern rifles, hold Geor-
gia (in Transcaucasia) despite the
three important Russian forces con-
verging thereupon, and that except for
runners, Georgia has been completly
isolated for many days.

Emperor Nicholas will resume his
residence at Tsarskoe Selo Nov. 16.

Conditions in Poland.
Private and reliable reports from
Warsaw say that all the parties there
are joining in the nationalist move-
ment, following the tactics of Finland,
for a complete strike. So long as
their attitude of passive resistance
continues the issue will be one of en-
durance.

The danger is that the Poles may
provoke an active measure, which
would mean nothing short of civil war.

It would be extremely difficult un-
der the present circumstances to at-
tempt to withdraw any troops from
European Russia. The number of
troops in Poland, however, is sufficient
to cope with the situation. With the
Polish "quadrilateral," Norvege-
skiers, Warsaw, and Evangorom on
each side of the Vistula, and Brest on
the Bug, there are over 600,000 troops.

OFFICIAL COUNT HAS BEGUN IN NEW YORK

Both Sides Seek to Have the Count
Conducted in Their Own
Favor.

(SPECIAL BY SCRIPTS-M'RAE.)
New York, Nov. 14.—The official
count of votes cast in the recent
election began this morning in each of
the four counties included within the
city of Greater New York. Lawyers
for candidate Hearst are fighting to
have the discrepancies on the tally
sheets corrected and all protested bal-
lots counted. The McGeehan attor-
neys are fighting to confine the can-
vassers to the face of the official re-
turns.

The Grand Jury.
The ante-rooms were filled with wit-
nesses when the grand jury resumed
its investigation of the election frauds
this morning. It is reported a mem-
ber of the election board in the Mur-
phy district has confessed to irregu-
larities. Alderman Haggerty is ac-
cused of assaulting a Hearst watch-
er and was arrested this morning and
is being held under one thousand dol-
lars bail.

STATE NOTES

Clyde Showerman and Charles Bel-
laire, arrested at La Crosse on a
charge of burglary, pleaded guilty,
and were sentenced to Waupun for
two years each.

The Wisconsin supreme court met
at 10 o'clock this morning to hear
down decisions in cases heretofore
argued and to hear arguments in a
new assignment of cases.

The Balsam Lake Lodge has been
sold by N. E. Johnson to L. E. Pah-
low, the present incumbent clerk of
court for Polk county. Mr. Johnson
has moved to Muscatine, Ia., where
he will conduct a job office.

The Kenosha police are searching
for P. J. Lynch, an iron-moulder, who
disappeared Saturday night. A dress
suit case containing clothing and oth-
er personal effects of Lynch was
found under a bridge, and it is
thought that the man may have com-
mitted suicide.

Arthur Goldstein, who was arrest-
ed in Milwaukee charged with steal-
ing \$8,000 worth of jewelry, has been
taken back to Minneapolis.

ROBBERS STOLE FROM DEPOT PASSENGERS

Masked Men Held Up Station Agent
and Four Passengers in a
Missouri Depot.

(SPECIAL BY SCRIPTS-M'RAE.)
Chillicothe, Mo., Nov. 14.—Four
highwaymen held up the occupants of
the Washburn railroad station at Gal-
latin Crossing last night and took
a hundred dollars and their jewelry
from seven passengers and the station
agent. One woman's belongings
were untouched. Arrests have been
made and it is said that members of
a prominent family are implicated.

BISHOP S. M. MERRILL IS CALLED BY DEATH

Noted Methodist Episcopal Church-
man Expires at Age of 80 From
Attack of Paralysis.

Chicago, Ill., Nov. 14.—Stephen Mas-
son Merrill, for thirty-two years a
bishop of the Methodist Episcopal
church and one of the oldest and most
prominent members of the episcopacy,
died suddenly at Keypoint, N. J., late
Sunday night, of sudden paralysis of
the heart, at the age of 80. The em-
inent theologian left Chicago two
weeks ago to attend the meeting of
the church's general missionary com-
mittee at Brooklyn, and was in such
apparently good health that he
preached Sunday morning in the Fleet
Street church. He had arranged to
conduct the evening services at Key-
point in the evening, but suddenly be-
came ill, his death coming a few hours
later.

The body will be interred in Rose
Hill cemetery. Funeral services will
be held at Grace church, LaSalle ave-
nue and Locust street, Friday at 10
o'clock a. m. Bishop William J. Mc-
Dowell, presiding officer of the Rock
River conference, will represent the
board of bishops, and Rev. C. J. Little,
president of Garrett Biblical Institute,
Evanston, will read the memorial serv-
ice.

AMERICAN MINING CONGRESS CONVENES

Men from All Parts of the United
States and Mexico Gather at
El Paso, Texas.

(SPECIAL TO THE GAZETTE.)
El Paso, Texas, Nov. 14.—Delegates
from all parts of the United States
and Mexico, among whom are some
of the best known mining experts in
the country, assembled here today at
the opening of the American Mining
Congress. The meeting will contin-
ue throughout the week. The dele-
gates represent boards of trade,
chambers of commerce, mining or-
ganizations, city, county and state of-
ficials, and the proceedings will no
doubt attract wide attention. El Paso
has made great plans for the enter-
tainment of the delegates. Mining in
all its phases will be considered dur-
ing the deliberations of the congress.

DOWIE GOING HOME; HEALTH IS FAILING

Doctors Say Another Stroke of Paral-
ysis Will Prove Fatal to
"Elijah III."

(SPECIAL TO THE GAZETTE.)
Victoria, Mexico, Nov. 14.—John
Alexander Dowie, or the self-styled
"Elijah III.," started for Zion City to-
day, going by way of New York. That
he is rapidly falling is admitted even
by his closest associates, and fre-
quent requests have been forwarded
to Zion City recently for prayers in
his behalf by the congregation of Shi-
loh Tabernacle. The doctors say that
if the Zion City leader suffers anoth-
er stroke of paralysis it will prove
fatal, as his advanced age is much
against him.

NORWEGIANS SELECT DANISH PRINCE, KING

Monarchists Control Districts About
Christiana, While Republican Sen-
timent Prevails in Interior.

Christiana, Nov. 14.—Prince Charles
of Denmark has been selected by the
people of Norway for king by an over-
whelming vote. While the returns of
the plebiscite of Sunday and Monday
are still incomplete, no change in its
main features is now possible.

The results in 418 constituencies
show 233,935 votes in favor of Prince
Charles of Denmark as king and 62,733
against him. The republicans ex-
pected to poll 33 per cent of the votes,
but obtained only 21 per cent.

It is noticeable that the monarch-
ists seem to control the districts sur-
rounding Christiana and all the coast
districts, while the sentiment in favor
of a republic predominates in the in-
terior and in the northern districts.

A great crowd cheered Premier
Mohlsten and President Berner of the
Storting. The premier addressed the
people from a window of the palace
and congratulated them on the results
of the plebiscite.

Edward Fiegl, brother of Council-
man John Fiegl, committed suicide
at Fort Wayne, Ind., by taking mor-
phine. His wife got a divorce about
six months ago and he took to drink.

TENNESSEE COAL MEN STAND PATTERS TOO

Passed Resolutions on Esch-Town-
send Measure Similar to Those
of Kentucky Men.

(SPECIAL TO THE GAZETTE.)
Knoxville, Tenn., Nov. 14.—A meet-
ing was held here today by the op-
erators and mine owners of Tennes-
see, who oppose the Esch-Townsend
bill to be sent to congress during the
coming session, and they will declare
against the measure to President
Roosevelt. Under the present adjust-
ment of rates Kentucky and Tennes-
see mines compete successfully with
the coal fields of Indiana, Alabama,
Pennsylvania and West Virginia,
and their owners say that the Esch-
Townsend bill would restrict them to
their state markets, which would
necessarily mean a reduction in force
as the states have not enough indus-
tries to consume the output.

SENATOR'S TRIAL IS NOT TO BE DROPPED

Government Means to Prosecute Bur-
ton, Though Delays Have
Hampered Proceedings.

(SPECIAL TO THE GAZETTE.)
St. Louis, Nov. 14.—The govern-
ment trial of Senator Joseph Ralph
Burton of Kansas, was resumed here
today before Judge Vandever. United
States Attorney Dyer has been in-
structed to draw upon the forces of
the Department of Justice for all the
assistance required in the case. Repre-
sentatives of the government said today
that the resumption of the trial will
cast aside all doubts of the govern-
ment's sincerity regarding the
prosecution. It is explained that
the annoying delays which have
brought criticism upon the govern-
ment were caused by the hope that
an agreement would be reached
whereby the case would be dropped.
By Senator Burton's resigning his
seat in the senate.

INVESTIGATION OF OIL RESUMED TODAY

District Attorney of Missouri Returns
from New York and Again
Opens Fight.

(SPECIAL TO THE GAZETTE.)
St. Louis, Mo., Nov. 14.—The in-
vestigation of the methods of the Waters,
Pierce, Standard and Republic Oil
companies was resumed here today.
Attorney General Hadley has been in
New York seeking testimony against
these concerns through their stock-
holders. All of the other companies
are alleged to be working in harmony
with the Standard Oil company,
which is charged with restraining
trade. An effort will also be made to
bring the officers of the Republic
company, with headquarters in Cleve-
land, to this state to explain their
methods of doing business.

After spending five months in jail
awaiting trial on a serious statutory
charge, Joseph Nowak was allowed
to plead guilty to a lesser offense,
and was fined \$25 and costs by Judge
Brazee, Milwaukee. He said he would
leave the city and expressed his in-
tention of enlisting in the army.

UNCLE SAM CREATES NEW TOWNS IN WEST

Sells Lots on Sites Where Cities Are
Expected to Grow—Irrigation
Dam Is Foundation.

(SPECIAL TO THE GAZETTE.)
Twin Falls, Idaho, Nov. 14.—Uncle
Sam acted as sponsor in Southern
Idaho today at the birth of Heyburn,
a promising new town, which was
created by the official sale of town
lots, under the auspices of the govern-
ment. Hundreds of prospective set-
tlers have been camped on the ground
for several days, anxious to bid in
the most desirable property. Hey-
burn and Rupert, which will be cre-
ated next week, will be situated on
the newly constructed branch of the
Oregon Short Line, extending to Twin
Falls. The country is now a desert,
but when the irrigation canals which
the government is now building at a
cost of more than \$3,000,000 are com-
pleted, it will be very productive.

PRINCE LOUIS WILL BE HOST TONIGHT

Those Who Have Entertained Him
While in America Will Be His
Guests at a Ball.

(SPECIAL TO THE GAZETTE.)
New York, Nov. 14.—Prince Louis
of Battenberg will return the hospi-
tality which he has received while in
American waters tonight by giving a
grand state ball aboard his flagship,
the Drake. Over five hundred in-
vitations have been issued to all of those
who have given functions in the
prince's honor, both official and unof-
ficial, and the battleship which is an-
chored in North River has been elab-
orately decorated for the occasion.

SPARKS FROM THE WIRES

Substantial advance in wages will
be demanded by car men of the Rock
Island road, according to officers of
the protective board, who are prepar-
ing a scale to be submitted to the
company in a few days.

Elmer H. Dearth, former state in-
surance commissioner of Minnesota,
indicted on a charge of receiving a
bribe of \$250, has withdrawn his plea
of not guilty and entered a demur-
rer to the indictment on the ground that
the offense stated does not consti-
tute a public offense.

Daniel Wilkins has been placed on
trial at Shelbyville, Ind., for the mur-
der of Harvey Babbs, whom he accus-
ed of wrongfully leaving his wife and
shot while in a cornfield with Mrs.
Wilkins. Afterward the husband and
wife locked arms and walked back to
town to report the murder.

Lieutenant A. J. Lynch of New
York, stationed at Fort Ethan Allen,
has been ordered before a general
court-martial for failure to pay debts,
neglect of duty and disobedience of
orders and passing worthless checks.
Consul General Robert J. Wynne
will sail for New York Nov. 15 and
will proceed to Washington to testi-
fy in the legal prosecutions growing
out of the investigation of the post-
office frauds.

Mrs. Schumann-Henk, who is
playing at Indianapolis, has signed a
contract with Henry Wolsehn, the
New York manager, to appear for the
next two seasons in concert, oratorio
and grand opera.

HYDE TELLS OF THE BUSINESS

Takes The Stand In The Insurance Cases In
New York This Morning.

IS VERY ANXIOUS AND ILL AT EASE

Explains His Part In The Management Of The Great Con-
cern His Father Built Up For His
Only Heir.

(SPECIAL BY SCRIPTS-M'RAE.)
New York, Nov. 14.—Expecting
Hyde would be called to the witness
stand in the insurance investigation
this morning, a large crowd, includ-
ing many ladies, were present. The
seats usually occupied by witnesses
and attorneys were given to the wo-
men. Mr. Hyde, accompanied by At-
torney Untermyer, entered and ap-
peared unconscious of the attention
he attracted. Hughes read a number
of letters from an Equitable official
to A. C. Fields, expressing disap-
proval of certain legislation pending at
Albany. John McGuinness, control-
ler of the Equitable company, was
the first witness.

Hyde Was Called.
Hyde was then called. There was
a stir in the court room as the young
financier was sworn and asked first
about his connection with the Equi-
table. He declared he was educated
by his father for the life insurance
business and was brought to under-
stand he was to succeed his father.
He entered the service of the com-
pany in the fall of 1898 as the second
vice-president and felt qualified to
fill the position.

Declined Salary.
He declined any salary when he
entered. In 1900 he accepted a sal-
ary of thirty thousand, which contin-
ued until 1902, when it was increased
to \$75,000. When the salary was in-
creased he was made chairman of the
finance committee and it increas-
ed his duties.

Salaries Offered.
He insisted in both cases that the
salary was offered and fixed without
a suggestion from him, but at the
volition of the members of the execu-

tive committee. He could offer no
explanation of the testimony of De-
pew before Hendrick in which the
senator said he was uncertain wheth-
er Hyde asked for an increase, but
thought he did and thought he want-
ed more than Alexander.

His Speculation.
Mr. Hyde said that he had been
given authority to receive money
from the cashier without any other
voucher than his own. He became a
director of the Equitable Trust com-
pany previous to 1901 and was vice-
president of it later at a salary of
five thousand dollars a year, which
was later increased to twelve thou-
sand.

Claims Credit.
He claimed much credit for build-
ing up the trust company. He dis-
cussed the syndicate operations, the
Squire account, which was part of
the "yellow dog" fund and is subject
to an inquiry which Hyde could not
explain. "This account has not been
explained at any time," he said.

The Alexander Fund.
He told of the J. W. Alexander fund
which was used to settle suits, pur-
chase stock and make political con-
tributions. Hyde, who is courtly, af-
fable and at ease among women in
a ball-room, was uncomfortable on
the stand and among men in the dra-
ma of his own making, and he ap-
peared like a school-boy before his
master expecting to be sent to a cor-
ner in shame.

His Work in France.
He testified as to having assisted
in the press campaign in France to
affect legislation in favor of the in-
surance companies.

PROPOSE TO RAISE BIG FUND

Leaders Look to Secure \$100,000 with
Which to Carry on the Battle in the
Legislature and Say They Can Get
Larger Sum.

Peoria, Ill., Nov. 14.—Local option
in Illinois and a fight to the finish was
the slogan sounded Monday evening
at the opening meeting of the Illinois
Anti-Saloon League. The Liquor
Dealers' Protective Association will be
met at every point.

Flushed with success of overthrow-
ing Governor Herrick of Ohio, for
which they claim the credit, the na-
tional and state officers in attendance
at the meeting here declare they will
win their fight in Illinois. Plans look-
ing to the raising of \$100,000 to aid
the cause will be started at this con-
vention. This is the sum said to have
been set aside by the liquor dealers
when they met in Peoria several
months ago.

"If they increase their fund we will
do the same," said National Organ-
izer Baker. "We propose to win this
fight and to do it quickly. There will
be no middle ground and victory now
is almost in sight. We are going into
the next state legislature and fight
harder than we did last spring and
we came pretty close then. We hope
to win this time."

Reform Leaders are Lauded.
"Thank God for the folks, for the
Hanks, for the La Follettes and for
the Roosevelts of today." This sen-
tence is the climax of the address by
Rev. P. A. Baker of Columbus, Ohio,
national superintendent of the Anti-
Saloon League. The large audience
which filled the First Methodist Epis-
copal church cheered the mention of
the political reformers with hearty ap-
plause.

dangers that accompany extremes,
saying that the flush of success may
bring a relapse due to ultra-confidence.
"As ministers of the gospel," said
the speaker, "we should teach high
ideals, but if I were elected to the
state legislature I would not attempt
to make laws according to my highest
ideals, but would endeavor to lift leg-
islation to a higher plane. In doing
so I would enact those laws up to
which the public has been educated
and place only those laws on the sta-
tute books that would be sustained by
the people, always keeping one ideal
in mind, that of lifting legislation to
a more advanced plane.

Tells of Ohio Campaign.
"Now, as to the Ohio campaign. It
was positively a nerve-racking cam-
paign. The tariff and railway legis-
lation, which were looked upon as the
probable issues, were cast aside by
Secretary Taft in his speech in an
Ohio town, when he declared that he
would not vote to continue the boss
ring in power in Cincinnati. This
sounded the keynote for the campaign
and the Anti-Saloon Association pro-
ceeded to carry out the intention to
clear the offices of the objectionable
men.

"Governor Herrick interfered with
the process of the legislature on the
local option measures. The Anti-
Saloon Association had demanded that
Herrick be not nominated, but party
leaders cast aside these pleadings and
renominated him. They predicted his
election by 33,000. That sounded
good, but the moral conscience of
the people had not been learned.
They had not learned that no man is
strong enough in himself to defy the
people. Election day came around
and Herrick was defeated, running
from 65,000 to 80,000 behind his
ticket."

The speaker called attention to the
fact that the Anti-Saloon Association
had a net of 100,000 votes in Ohio.

TOILERS OF THE EARTH AND AIR

WERE PLACED ON THE CARPET LAST EVENING

BEFORE THE CITY COUNCIL

Plumbers Will Probably Be Put Under Bouds, But Telephone Men May Be Given Time to Raise Their Wires.

District Manager Oliver of the Wisconsin Telephone Co. was granted permission to address the city council last evening regarding the immediate enforcement of a certain city ordinance. "Some time ago, as you all know," he said, "an ordinance was passed here requiring the telephone wires to be at least 40 feet above the ground. Chief Klein has requested us to comply at once. We have several places where the wires and even the cables do not come up to the required height. Inasmuch as, in the early summer, the company will reconstruct its entire system we come before you and beg of you to grant us until that time to comply. If we don't rebuild—the work was promised this fall but we were tied up with so much other work that it could not be done—we can make no complaint then against the enforcement. If we are required to raise the wires now the work will all have to be done over again when we rebuild and this means just so much extra expense."

Dangerous in Some Places. Mayor Hutchinson said: "If I understand the matter rightly the company has already been given considerable time to comply." Chief Henry C. Klein was called on to give his views and did so as follows: "They say, and they have said for the past three years, that they are going to rebuild. Of course if they are going to do so we should be lenient. In some places the wires are dangerous. In the vicinity of the Rock River Cotton Co.'s plant their wires bothered us on one occasion. They are not up to the required height on Main street. The ordinance pertains to the downtown district. Some of the wires are not more than 30 feet high. The Rock County Telephone Co. hasn't complied, either. They have paid no attention to the matter and I have asked the city attorney to commence prosecution." Ald. Fish suggested that the company be given until April 1 to start in with the work. Mayor Hutchinson smilingly suggested that it might be well to instruct the city marshal to cut down the poles. City Atty. Burpee suggested that the opera-house fire-escape matter be taken up. On motion of Ald. Jackman the matter was referred to the judiciary committee with instructions to report at the next meeting.

May Buy Street Sweeper. Ald. Jackman said that the finance committee had been trying to hit upon some expedient for reducing the cost of cleaning the streets. It was now costing \$100 a month to keep the downtown avenues clear. The idea of securing a street-sweeper had seemed feasible. The speaker, therefore, moved that the highway committee take the matter under advisement and secure prices. The motion prevailed. Ald. Fish called attention to the many complaints directed at plumbers who have installed services in various parts of the city without properly fixing the streets thereafter. He moved that the city attorney be instructed to draw up an order putting every man who digs in the street under a license and making him keep that portion of the street which he digs up in repair for two years. It was further stated that the plumbers would readily agree to such an arrangement but that the City Water Co. was opposed to it. Ald. Merritt said that there was a hole left in one of the streets in his neighborhood which was responsible for a back's breaking all its forward springs a few nights ago and he presumed the city would be asked to pay damages. The motion was carried.

Monthly Reports Received. Reports for the month of October were received from the city treasurer, the municipal court, the board of

education, and the city marshal, were received and placed on file. The finance committee presented its report on bills and the pay roll and the same were approved. The assignment of Contractors Elzy & Dunn of money due them for work on Milwaukee avenue to the Rock County National bank was approved and the city clerk was directed to draw on the city treasurer in favor of the bank as assignee, for the following sums: \$386.22, balance due from the first ward fund for work on West Milwaukee; \$712.23, balance due from the second ward fund for work on East Milwaukee; \$1,343.62, balance due from the third ward fund for work on South Main street. The street assessment committee reported that \$453.12 was due Contractor M. J. Benson for sewer work in District 6, the work having been accepted, and that \$472.41 was the amount due from the district itself, independent of the individual property-holders, after the amount due the city from the contractor for crushed stone and the use of the road-roller had been deducted. On motion of Chairman Baumann of the committee on sewers the report was adopted and an order was passed instructing the city clerk to draw on the city treasurer in favor of the contractor for the above-named amount. Another order instructed the treasurer to transfer \$22.80 from Sewer Dist. 6 fund to the general fund, the said sum having been deducted for the crushed stone, etc. On motion of Ald. Baumann the clerk was also instructed to draw on the treasurer for \$500 payable from Dist. 5 to M. J. Benson in partial compensation for the laying of the sewers in that district.

Licenses Transferred. The Kate Richter claim for damages was referred to the judiciary committee and was not reported. Applications for the transfer of saloon licenses from J. L. Leffingwell to Bert Van Houten and Patrick Garvin and from Bert Van Houten and W. C. English to W. C. English were granted, the bonds being found in due form and sureties good. A license was also granted the John Gaud Brewing Co., the money having been paid in some months ago but some technicality having delayed the formal issuance of the permit. The fire and water committee and the chief engineer were authorized to purchase 500 feet of fire hose. The city engineer was instructed to file grades for certain portions of Forest Park boulevard, Garfield avenue, South Third street, Oakland avenue and Jefferson avenue. The street commissioner was ordered to lay a brick crosswalk across Center street on the west side of River street. The city clerk was instructed to draw on the city treasurer for the sum of \$18.96 payable from the fund of sewer Dist. No. 5 to Patrick Gagan, to correct an error in sewer certificate 690. A. S. Wolcott was returned in a similar manner for an error of the same description in certificate 694. All the aldermen were present at the session save J. J. Sheridan.

News for the Railroad Men.

North-Western Road. Eight extra stock trains passed through Janesville last night.

An extra passenger train was run to Chicago today as a second section of number 510. Engineer A. L. Wilcox, fireman J. D. Kaufman, conductor Vermilya and brakemen Erdman and Clifford comprised the crew. Locomotive number 1132 was used.

Engineer Guy Cole and fireman H. P. Merrill are on switch-engine number 124, days.

Forty-two engines were turned on the table here last night.

Engineer F. A. Barter and fireman J. Heagney went to Chicago on locomotive number 1162 last night.

"The Girl and the Bandit" theatrical troupe arrived here from Elgin, Ill., at 11:40 this morning. The baggage cars will leave tomorrow morning at 6:05 and the troupe at 11:45 for Madison.

Fireman B. W. Van Dyke is in Harvard.

Oscar Bailey, O. Drafa and Walter Seitz have left the employ of the North-Western company.

Fireman J. J. Russell is in Chicago today on business.

Fireman G. E. Townsend is dispatching engines nights.

The E. J. and E. run, called the "Barrington turn-around," has been taken off.

St. Paul Road. Fireman Arthur Wright returned to work today.

The office car of general foreman J. C. Fox has been moved to the north in front of the blacksmith shop. Taking the car from its old position gives considerable more room for building and filling material that is wanted near by the new round-house.

The first work on constructing the roof was done today, preparations being made to place the purlines. The rear wall of the house is practically up and the laying of brick on the southeast end wall is commenced. The pit, to which the "material" track will run, is finished and will be hardened enough so that the rails can be laid on it shortly.

MEMBERS OF SCHOOL BOARDS TO GATHER

Second Rock County District Convention in Janesville Thursday—Buell to Speak.

In the Janesville high school building a school board convention of the Second Rock county district will be held Thursday, November 16. This is in accordance with the new state law, which provides that county superintendents shall annually hold conventions for members of their school boards. Such topics as will be of interest and benefit and consequently bring about a more united effort for the improvement of the rural schools, will be considered. The statute orders that each school district clerk shall attend this meeting and the director and treasurer may attend. The school district shall pay to each of its officers attending such a meeting the sum of two dollars, and three cents for each mile traveled. The program of the gathering is as follows:

FORENOON SESSION.
9:30 o'clock.
What Does the School Board Owe to the Teacher and to the School? H. C. Buell, Supt. Janesville Schools. Some Important New School Laws. Chief Clerk C. L. Harper, Madison Compulsory Education. F. E. Converse, Supt. Beloit Schools.

AFTERNOON SESSION.
1:30 o'clock.
School Clerks' Reports. C. L. Harper. Agriculture. Prof. A. A. Upham, Whitewater Normal Centralization of Schools. Supt. O. J. Kern, Rockford. State Supt. C. C. Carr expects to be present and take part in the program.

MARIAN MARNE SHOWS ENTHUSIASM

Nothing But Silks the Paris Dictum—Fashionable Figure a Triumph—The Chic Petticoat.

Paris fashions are so varied, and so bewilderingly picturesque, so pretty quaint that it is difficult to choose which of the models I have culled for you from the great Parisian modistes best to tell you about in my allotted space. Never before were created such exquisite, delicate, cloudlike affairs, seemingly wrought by fairy fingers, reviving all the choicest coquetties of past generations, and never before was such latitude permissible in the cut of garments, from the graceful Princess gown for her of the lissom figure to the less trying models for the woman whose proportions should not be so clearly defined. But for the fabric the Paris dictum is silk. Silk is worn in the morning—it is a la mode for visiting. Silk goes shopping and to the theatre. It is worn for gowns, for coats, for negligee garments and for the petticoat. And the petticoat! That article that once upon a time was only considered from the standpoint of utility—when it was the exceptional woman who wore a silk petticoat with her morning frock.

But we have changed all that, and where one silk petticoat was sold ten years ago a hundred are purchased today.

It is said that it requires a Parisienne to create a beautiful petticoat and an American woman to wear it—a just tribute to our women who are becoming known abroad as the "best dressed women in the world."

Be this as it may, some of the most bewildering effects in this dainty garment were shown me in the Rue de la Paix, which are to be worn by America's fair daughters for they were being made to the order of an enterprising New York firm, which, profiting with true American cleverness in the strenuousness of the silk craze, is about to open a shop in New York for the sale of silk only. "Nothing but silks" is their characteristic motto.

Both the gowns in my illustration are of silk, the one on the right being a visiting gown of burgundy tulle, the other composed of softly shirred pale grey messaline.

Just now the fashionable woman's figure is at its best a triumph, owing to the extremely sensible corsets, which, in conservative models, such as the G-3 a la Spiritie, have assisted woman to correct Dame Nature's disposal of surplus flesh. The fashionable waist is not too small, but is supple, and while it has a straight front line, shows a well defined side and back line.

Pretty quaintness distinguishes many of the hats, but unfortunately milady must choose carefully, as few of the most popular models are becoming.

FIRST CONCERT OF APOLLO CLUB

ATTRACTED THE MUSICIANS OF TWO CITIES.

LIBRARY HALL LAST NIGHT

Was the Scene of a Brilliant Gathering—New Piano Presented—Charming Program Rendered.

Library hall was crowded to the doors last evening with musical people of Janesville and Beloit who assembled for the first of a series of concerts to be given by the newly organized Apollo Club. The program which was arranged by Miss Ruby Garlick, the well-known Beloit vocalist, was preceded by the presentation of the Mason & Hamlin grand piano, donated to the club by some fifty citizens of Janesville. George S. Parker spoke in behalf of the donors and Hon. Ogden H. Pethers, president of the organization, made a happy response in his behalf.

Of the artists responsible for an altogether delightful program, all but Mrs. J. F. Sweeney and Miss Anne Skymaker were from Beloit. The piano selections by the last-named, the work of the Treble Clef club of eleven ladies, the vocal numbers by Miss Garlick and Mr. Wilson, the solos by Mrs. R. J. Dowd and Miss Benney, and the violin selection by Miss Crandall of Milton, were all appreciated. The program was as follows: Presentation on Behalf of Donors. Response by the President. Ogden H. Pethers. Bourree Fantastique. Chabrier. Mrs. Sweeney.

In May. Parker. Treble Clef Club. (a) Come to the Garden. Mary Turner Salter. (b) Recompense. Hammond. Miss Garlick. Violin—Adagio Pathétique, Op. 128. Miss Crandall.

The Wordly Hoops—"Persian Garden." Miss Benney. Echoes of the Ball. Gillet-Housley. Treble Clef Club. Carnival Mignon. Edward Schmitt. Prelude—Serenade d'Arlequin. Tristesse de Colombine—Polichinelle—Pierrot—Caprice Sganarelle. Anne Skymaker.

Endymion. Liza Lehmann. Miss Garlick. (a) Long Ago. Oley Speaks. (b) Little Irish Girl. Lochr. Mr. Wilson. The Sea and The Moon. John Hyatt Brewer. Treble Clef Club. (Incidental Solo—Mrs. R. J. Dowd.)

MILTON PEOPLE ARE THOROUGHLY ANGRY

Having a Total Abstinence Village, They Object to Drunken Visitors from Other Places.

Milton, Nov. 14.—The citizens of this village, that is most of them, are becoming weary of being awakened from their nightly slumbers by the yells of drunken hobos from other towns, and unless the howlers desist they will find themselves in the hands of the village marshal.

Farmers Are Prosperous.
The weather so far this month has been a necessity to the farmers as many of them were behind with their fall work, but at the present time a large per cent. of the beet crop has been delivered, in fact the Menominee Falls company have received all but two or three crops. Some farmers have already finished husking and most of them are ready for winter. Upon the whole, 1905 has been a prosperous year for the farmers in this locality.

Milton Brief Notes.
Mrs. F. H. Gifford attended the Methodist district convention at Beloit Thursday and Friday as a delegate from the local church. Miss Addie Campbell, who is teaching at Clinton, spent Saturday and Sunday at home. Frank D. Hall of Manchester, Iowa, called on Milton friends and relatives Saturday.

T. T. Coon has returned from South Dakota where he took a party of land seekers last week. M. C. Whitford goes to Minnesota and the Dakotas as a representative of the Janesville Barb Wire company. Miss Inez Rice of Palmyra, has been a recent guest of Miss Anna Plumb.

Mrs. W. S. Alexander of Oak Park, Ill., spent Thursday and Friday at the Alexander homestead. Mrs. P. J. McFarlane and son of Johnston, visited relatives in the village Friday and Saturday. Mr. and Mrs. C. L. Tubbs of Lake Mills, were the guests of Mr. and Mrs. Jay Campbell Monday.

117 ARRESTED IN MONTH OF OCTOBER

According to City Marshal's Report—All But Fifteen Were Drunks.

Arrests made by Janesville police officers during the month of October totaled 117, according to the report of City Marshal W. H. Appleby to the city council last evening. The offenses and offenders were as follows: drunkenness, 102; larceny, 5; assault and battery, 3; incorrigible, 1; burglary, 1; abduction, 1. Of the individuals arrested, 56 were discharged and 61 were taken into court. Lodging was afforded 31 men without work. Stolen property returned to owners amounted to \$750 in value. The arrests were made by the following officers as follows: W. H. Appleby, 23; Bear, 28; Brown, 15; Benke, 14; Champion, 12; Fanning, 21; and Morrissey, 4.

MARSDEN BOUND OVER FOR TRIAL

All-Around Bad Youth from Janesville is Sent to Jail, No One Appearing to Furnish Bonds.

Rhy Marsden, the all-around bad youth from Janesville who is under arrest in Milwaukee for the theft of several hundred dollars' worth of property from a museum, was arraigned before Acting Judge Michael Blenski in the district court of Milwaukee yesterday. He waived his preliminary examination and was bound over to the municipal court for trial in bonds of \$500. He was remanded to jail in default of bail.

"HOUSEHOLD"

(Laundering Lace Curtains.) In reply to the housewife about laundering her lace curtains successfully, I will tell you my method.

When you take your curtains down remove the hooks or pins, pick out any threads, and shake them carefully so as to remove all dust. Next examine closely and mend every tiny break and darn the thin places. I use cotton-wool—very fine—to darn and mend with. Next make a good cleansing suds of rain-water and put in enough borax in the suds to whiten them without rubbing much. Your curtains will last you twice as long by putting in borax, as it seems to take the dust and soil right out, and especially if you live in a city where the black soot gets in them so badly. You put your curtains in the tub of suds and work them about in this suds for ten minutes or more; then leave them there to soak over night. This loosens the dirt and saves you so much work, besides so much rubbing breaks the threads. Next morning rub the curtains between your hands, fold them, smooth them and pass through the wringer (if you have one) otherwise just rinse in clear warm water. Then pin them to a sheet which has been stretched on the carpet in a spare room. Pin down each joint good, then never take it up until perfectly dry.

HAPPY RESULTS OBTAINED.
By the Use of the New Scalp Anesthetic.

It wouldn't take long to number the hairs in the heads of some people, the reason being they haven't many to number. In most instances, however, the fault is their own. A germ at the root soon plays havoc with the most luxuriant growth and causes it to fade and fall out. A remedy for this has recently been discovered called Newbro's Herpicide, that acts by destroying the germ that does the damage, besides removing all impurities from the scalp. In addition it permits new life and vigor to enter the scalp, and happy results are sure to be obtained from its use. Try it. Sold by leading druggists. Fair and warmer.

"A lion is known by his paw"
—seeing only its paw you could not be persuaded that it was a coyote or jack-rabbit. A store is known by its ads. A man who has never been in this city would be able to identify, unerringly, the enterprising and important stores simply from looking over the ads in this newspaper.

HARMONY AT ANY COST.

The Appleton Post is advocating harmony at any cost, but suggests that the only solution is in the support of Senator Hatten for governor. This is a plan for harmony with a string attachment and the scheme will have but little influence with the conservative element of the party.

The Post, in its enthusiasm for Senator Hatten, relegates to the rubbish pile of defunct politicians, an element in the party with which that paper has long been in sympathy, and compares these men to the bosses of other states who were retired to private life at the recent election.

This self-righteous attitude of the Appleton paper, might have some significance if the conservative element of the party was tainted with bossism, but the fact that it has waged an independent warfare against the only machine which has ever cursed the state, is well recognized by the most obtuse citizen.

That party harmony is desirable is not a debatable question, but the time is not yet ripe for selecting a harmony candidate.

The machine, now in control, is top-heavy, and when the structure collapses, as it will in time, the political atmosphere will be classified.

The man who leads a united party to victory, in the next campaign, must be broad enough to recognize the fact that there is but one republican party in the state. He will doubtless be selected from one or the other of the contending factions, because there has been no neutral ground, but there are plenty of good men in either faction, who have not made themselves obnoxious, as has Senator Hatten, and a number of others whose names are now on the list of possibilities.

The Post should possess its soul in patience, remembering that "all things come to him who waits." There is no hurry about endorsing a candidate for governor.

SHAW AND THE MONEY MARKET.

Wall street with call money touching 15 per cent, seemed to say to Secretary Shaw:

Deposit money in the banks.
But Secretary Shaw, fearing that the effect of such a measure would be to encourage a speculative inflation, and believing that the money situation would be relieved in a natural way, has thus far refused to respond.

This is the first time Secretary Shaw has displayed any timidity in facing a situation. If he has had any fault, it has been an excess of courage.

Some of the leading bankers while looking for a continuance of high money rates for some time to come endorse the position he takes.

Meanwhile: money continues to flow west and south in such amounts as threaten to wipe out the slender surplus reserves of the Clearing House banks.

If Secretary Shaw does not come to the relief of the situation what natural remedies are there?

1. Decrease in loans. This has taken place in Europe during the past week and is undoubtedly going on here. It is a harsh remedy, but may be wholesome.

2. The high rates for loans attract whatever free money there may be in any part of the world, where the rates are upon a lower level. There is some hope that the high money and the freer movement of cotton will result in gold imports.

The situation is decidedly mixed, and while 15 per cent. money is an unpleasant development and one which ought not to be possible in any well regulated financial community, yet confidence prevails and there is an encouraging feeling that conditions will work for the better in two or three weeks, and that in the meantime it is wisdom not to put too much steam on in the stock market.

The Wall Street Journal thus discourses on the money situation in Wall street. Fifteen per cent. for call money, is practically a bar to borrowers, and under ordinary circumstances would mean a panic, but the times are so prosperous, that outside of Wall street, scarcely a ripple appears on the surface.

The great demand for money just now is a legitimate demand. The crops in the west and south are so heavy, that an immense amount of money is required to handle them. This volume of currency will return to ordinary channels, by the first of the year.

With the granaries of the countries loaded with a rich harvest, and in industries taxed beyond capacity, there is no occasion for alarm.

Wall street money is largely employed in speculation, and the present rate of interest will place a wholesome check on the business. There is plenty of money in the country for legitimate purposes and the outlook for continued prosperity is very promising.

PRESS COMMENT.

Who Can This Possibly Be?

Milwaukee News: There is a politician at Madison who seems to doubt that "no bird ever flew so high but what it had to light."

True and No Mistake.

Wausau Record: Some of the La Follette boomers say that the governor has some characteristics that Roosevelt has not. Well, he has.

Mere Matter of a Billion.

Racine Journal: On October 31st the interest bearing national debt was \$895,158,949 and the total debt \$1,002,646,125 less \$281,515,288 cash in treasury.

Until Man Made It Ugly.

Exchange: Can it be that Richard Mansfield is taking a veiled shot at the bill board nuisance when he says the world was beautiful until man made it ugly?

Rejoinder is Hardly Pertinent.

Beloit Free Press: Whether it shall be Lenoir, Connor, Hatten, Davidson or McGilivray—and it is more than likely to be one of these—what difference will it make a thousand years hence?

Monkeying With The Inexorable.

Chicago News: Several able educators who have invited themselves to the solemn ceremony of trying a can to football may find on inquiring the way to the place of meeting that there isn't going to be any meeting.

Many Have No Better Reasons.

La Crosse Leader-Press: The citizen who votes for a local candidate because he belongs to one party or another is about as valuable to a community as he who votes for a man because he thinks he will win.

"Not 'Specky's' Fault.

Louisville Times: The enemies of Von Sternberg, who are trying to make trouble for him because Mr. Roosevelt calls him "Specky," don't know the President. If he ever happened to meet the kaiser, and took a fancy to him, he wouldn't hesitate for a minute to call him "Bill."

Visit Very Inopportune.

Chicago Inter Ocean: Prince Henry of Battenberg timed his visit to New York very inopportunistically. But, then, he could not have known that William Randolph Hearst would have monopolized the attention of the populace so long.

Butler is One of Them.

Milwaukee Sentinel: Even the danger of incurring the wrath of the boss can not break the tie that binds former Governor W. D. Hoard to Representative Adams. There are some things stronger than political bonds, and Butler is one of them.

Nursery of Galvanized Nerve.

Oshkosh Northwestern: According to The Chicago Tribune "Chicago is the nerve center of the country." And after varied experiences with some of the traveling men from that city the chances are there will be little dissent from The Tribune's opinion.

Property Value Basis.

Madison Journal: The ad valorem law is held valid and so goes to the supreme court with a good momentum. Citizens of all factions will be glad to have the issue permanently settled. The property value basis of taxation is generally accepted as the correct one, if not the most convenient.

It Amuses the Onlooker.

Oshkosh Northwestern: The Milwaukee Sentinel and The Milwaukee Free Press are both rejoicing over the fact that the recent elections have resulted in the overthrow of the big political bosses, and each of them seems to think that in some manner this furnishes support for its own particular brand of politics and a warning to the other side.

'Twasn't Saying Much.

Chicago Record-Herald: One of the speakers at the banquet which British-born Chicagoans held in honor of the sixty-fourth birthday of King Edward said: "I maybe old to maintain that Edward is the peer of all his kingly ancestors from the time of bluff, old, much-married King Henry VIII." Come to think of it, that wasn't saying much for Edward, either.

Jerome's Amazing Run.

Chicago Tribune: People in the west who have not followed closely the course of the campaign in New York City scarcely realize the measure of Mr. Jerome's triumph. Here was a man without an organization, without a place on the ballot under any party device, running absolutely alone, and opposed by three organized parties, who, in the fact of all obstacles, succeeded in obtaining a plurality of the votes cast. While it is true that the republican candidate for district attorney was withdrawn in Mr. Jerome's favor, the withdrawal came too late, and his name was not permitted to go in the republican column. It stood alone.

Peat or Corn Stalks.

In an Exchange: Ireland and Scotland at one time and another the manufacture of paper and book boards out of peat has been attempted, usually on a small scale. Two firms are now making wrapping paper out of peat, but another material has to be added, the so-called peat paper

being only about three-quarters peat. At present, at least, peat pulp cannot be bleached. Consequently only brown paper can be made out of it. Finally, straw and woodpulp papers are cheaper. Much more promising is the new industry of making paper out of corn stalks. If it be true, as is reported, that a ton of corn stalks, paper, equal to that made of wood pulp or rag, can be manufactured for \$22 to \$25—the manufacturing cost of wood pulp or rags paper runs from \$60 to \$75 a ton—then the people who own the patents on the new processes are going to be gods of the earth, and the paper trust will be smitten woefully. The farmers can find more profitable use of their corn-stalks than to make fire or fertilizer of them.

Press Agent's Little Ruse.

W. E. Barlock in "Men and Women": Channing Pollock, now the press representative of Shubert Brothers, as well as the author of "The Pil," "The Little Grey Lady," "In the Bishop's Carriage," and several other plays, has probably originated more good stories for the years he has been in the business, than any other man. One of his best was done about a year ago, when Lillian Russell was rehearsing for her starring tour in "Lady Teazle." He had a chorus girl discharged from the company on the grounds that she was not sufficiently pretty to be in the chorus, taking care, of course, to choose one of undeniable beauty, and one whose pictures the newspapers would be glad to print. Then he had the girl to bring suit to be reinstated, and story after story over the question of whether she was of sufficient pulchritude not to be a blot on the chorus, was printed in the newspapers. The Hearst Sunday newspapers printed a page of pictures of this girl, with opinions of various well known stage managers, from Miss Russell, from the girl, from artists, and other persons supposed to be well informed judges of beauty standards, and the story spread all over the United States.

MRS. SARAH BUTLER DIED AT THE HOME OF HER SON

Was Eighty-Three Years of Age and Has Lived in Janesville for Past Twenty-Four Years.

Mrs. Sarah Butler died at the home of her son, Harry Butler, 16 Arch street, this morning at three o'clock. The deceased was a highly respected and well-known resident of the city for the past twenty-four years and many will mourn her demise. She was eighty-three years of age and a native of Cambridgeshire, England. Twenty-five years ago she came to America and the greater part of her life since then had been spent in Janesville. She is survived by three sons and a daughter—Harry Butler of this city, Charles Butler of Grand Rapids, John Yarrow, who resides near the school for the blind, and Mrs. John Marsh, who resides near Afon. The funeral will be held from the home of Harry Butler Thursday afternoon at half-past two o'clock.

Town Talk.

He had to have those trousers, even if it was Sunday and the tailor-shop was closed. The matter was imperative because he was expected up on Quality Hill at half-past eight o'clock. It was already after seven and when he reached the tailor's house he was dismayed to learn that the latter had gone to church. "Which church?" he inquired in desperation. Acting on the information vouchsafed he hastened to the tabernacle. The minister was in the midst of his sermon and away up in the front rows he presently espied the tailor. It was a thing he did not like to do, but there was no help for it. He glided up the aisle and hurriedly whispered to the man in front, asking him for his keys. Then out in the night again along the highway, and up a light of stairs. There were numerous garments of the kind hanging in the shop, but that black pair was certainly his. Trousers had never looked so good to him. At the curb a rig was waiting. Mighty good of that friend to help him out. It was a few minutes after eight. A swift, half-mile ride, and he was in his own room beating all previous achievements in a record of hasty toilet. Then—"Merciful heavens! Whose bifurcated black tent was this?" The nether garment, fitted like a meal-bag on a fish-pole. No time for readjustments! Disgustedly and with an ill-natured murmur, he pulled in the slack about the waist and transfixed it with a pin. "Good evening, N—," hasn't this been a perfectly lovely day? "Hello, guess so, hadn't noticed it particularly."

OBITUARY

James R. Gilman
James R. Gilman, aged eighty-six years, died at the county farm shortly after eight o'clock this morning. A general breaking down, due to old age, was responsible for his passing. Deceased was a resident of Janesville for several years and up to last December made his home at the Park hotel. At one time he was employed in the Janesville Carriage Works. One son resides in Pittsburg and another in Cleveland. There are also some relatives in Evansville, where the remains will be taken tomorrow for burial.

Simeon Schoonover

Simeon Schoonover died on Oct. 30 at the home of his daughter, Mrs. Douglas Hopkins, near Indian Ford. He was born June 15, 1819, in Tioga Co., N. Y. On Feb. 6, 1849, he was married to Miss Anna Courtright of the same place. In 1851 they came to Wisconsin and settled a few miles north of Janesville, where he has resided all these years and was one of Rock county's early pioneers. He leaves to mourn his loss a faithful and devoted daughter, Mrs. Douglas Hopkins, who has so unflinchingly administered to his wants for many years; one son, Charles Schoonover, also of Fulton township, one granddaughter, Mrs. Mabel Hopkins Wood of Stoughton, and one grandson, all of whom have the sincere sympathy of the entire community in which he had endeared himself by his amiable disposition and noble character. The floral offerings were many and beautiful, and he was laid

to rest in the Edgerton cemetery. In the home he was a constant blessing and in the hearts of his children he leaves a blessed memory. Although at the advanced age of 86 his mind retained the strength and brilliancy of youth. He was a constant reader and never lost interest in all social, political and religious affairs of the day, and kept well posted on all current events. During all the trials, successes and failures of life his constant cheerfulness was combined with unselfish heart and determined purpose. VESTRY ACCEPTS HIS RESIGNATION

REVEREND A. H. BARRINGTON TO LEAVES JANESVILLE SOON.

HAS BEEN HERE MANY YEARS

Has Seen the Church Grow and Many Improvements Made During His Rectorship.

At a meeting of the vestry of Christ church held Monday afternoon the resignation of Rev. Arthur H. Barrington was accepted and a possible successor was discussed. Some days ago Mr. Barrington asked the vestry to relieve him of his duties here that he might accept a call from an Everett, Massachusetts church that was desirous of his services. At the meeting held yesterday this resignation was formally accepted and resolutions adopted expressing regret at his determination to leave and of their appreciation of his services while rector here. During Mr. Barrington's term as rector, the church has been wonderfully improved, the parish and rectory having been built, the interior of the church materially improved, the church debt

REV. ARTHUR H. BARRINGTON

raised and the exterior of the church property, including the grounds, placed in excellent condition. Mr. Barrington has been in Janesville for the past fifteen years and in going to Everett, adjacent to Boston, he will again be near his old home—Boston. He is a forceful speaker and his departure will not only be regretted in Janesville but throughout the whole church diocese as he has had important matters under his charge which had been confided to him by the Bishop. The names of Rev. Jones of Portage, Rev. Bowne, at present in New York, but formerly of St. James and the Cathedral, Milwaukee, and Rev. Wise have been mentioned. Others have made application but it is probable that the decision will be made by the vestry only after due consideration. Christ church was first organized in the early part of 1830, owing to some slight personal feeling among certain members of Trinity church, a few individuals quitting the old congregation and forming the new. Meetings were first held in the old Lappin hall and Rev. Thomas J. Riger was the first rector. Later services were held in the dining room of the Ogden Hotel and it was not until 1861 that ground was purchased and built a church on their site on Park Place. The new church was consecrated on October 31, 1861 by the Rev. Rev. Jackson Kemper, D. D., bishop of the diocese. Among the early rectors of the church were Rev. Thos. J. Riger, Rev. Henry W. Spaulding, Rev. Robert W. Woolsey, Rev. E. Tolson Baker, Rev. Joseph Wood, Rev. George Dutton, Rev. A. L. Royce, Rev. Pullen, Rev. Dean Rev. Spaulding again and then Rev. Barrington.

TESTING HEIGHTS OF WIRES IN THE "HIGH WIRE" LIMIT

Judiciary Committee of Council is Seeing Whether Ordinance Is Enforced.

By the use of the aerial ladder the Judiciary committee of the common council with Chief of the Fire Department H. C. Klein and a force of firemen are testing the height of telephone and electric wires about the business streets of the city today. In the majority of places no fault could be found with the main lines, but in many places when lowered toward a building, these Chief Klein says can be run along from pole to pole outside the "high wire" limit and then stayed down without greatly weakening their power. On North Main street telephone wires were found to be low. Another objectionable feature of the wiring was the manner in which strings were run from the poles to the buildings containing phones. They are now slanted down in many instances, when they should be run horizontally from the poles to the buildings and then run down the walls to the place of entrance.

SOLEMN HIGH MASS SAID FOR LATE M. P. CUNNINGHAM

Funeral Services Were Held This Morning at Half-Past Nine From St. Mary's Church.

All that is mortal of the late M. P. Cunningham was tenderly laid at rest in Mount Olivet cemetery this morn-

ing. Funeral services were held from St. Mary's church at half-past nine o'clock, solemn high mass being said by Rev. Goebel, assisted by Revs. Hans and Borgmeyer. The pallbearers were Joseph Connors, Joseph Donahue, Martin Dunn, D. Morrissey, John Nolan and E. H. Connell.

LOCAL NEWS OF THE DAY.

Special Meetings: Last evening Rev. Luecke delivered an address on "Confidence" at the Advent Christian revival held at No. 10 South Jackson street to an interested audience. This evening Evangelist C. S. Ladd of Mendota, Illinois, speaks on "Power." The public are cordially invited to attend.

Did Not Arrive: John Farson, the new owner of the Rockford, Beloit and Janesville interurban, who was expected in the city today, had not arrived at four o'clock and it is probable that he will not come until tomorrow.

Fire at Planing Mill: The west side fire department was called to the boiler-room of the Janesville Sash and Door company's plant in the alley between North River street and the river this afternoon by a still alarm. The blaze was behind the boiler, an amount of shavings and sawdust having ignited, it is supposed, from the boiler. With one stream and the use of the chemicals the fire was extinguished without doing any considerable damage.

Dope and Anti-Dope: William Lambert was fined \$1 and costs for drunkenness in municipal court this afternoon. Robert Welch was given \$5 and costs or 30 days in jail but after pleading for a chance to leave town, sentence was suspended until tomorrow morning. Welch indignantly disputed the statement of Marshall Appleby to the effect that Welch and a man named Holleran had on a recent occasion mixed two quarts of Keely cure and one quart of brandy and indulged in a high old time with the "compromise."

Judith of the Plains

—By—
MARIE MANNING,
Author of "Lord Allingham, Bankrupt"

Copyright, 1905, by Harper & Brothers

As he tossed, half waking, she heard him groan and curse the cattlemen with oaths that made her glad she had sent the children from home. Then she bent over him and woke him from his uneasy slumber.

"Jim, don't you want me to bathe your head? And here's some nice hot coffee all ready for you."

Jim woke slowly to a realization of his troubles and his blessings. His wife was bathing his head with hands that trembled. Not always had she greeted his indiscretions with such loving forbearance. He noticed, though his waking faculties were not over-keen, that her face was pale and frightened and that her eyes, meeting his, held a dumb, measureless affection.

"What are you babbling me for?" But his roughness did not deceive her woman's wits. He was not getting the lecture he anticipated and this was his way of showing that he was not contented by her kindness. The morning sunlight was pitilessly frank in its

"What are you babbling me for?"

exposure of the grim pinch of poverty in the mean little room, but the woman was unconscious of these things; that she saw was that Jim, the reckless—

Jim, the daredevil terror of the country—Jim, who had married and settled with her into homekeeping respectability—Jim, who had struggled with misfortune and fallen, had, young as he was, lost every look of youth; that hope had gone from his dull eyes and that his face had become drawn until the death's head grinned beneath the scant padding of flesh. But he was today, as always, the one man in the world for her. In making a world of their own and reducing their parents to supplementary consideration, their children, whom she had sent away that she might be alone with him, had given a different quality to the love of this pair, that had known so many curious vicissitudes. The responsibilities of parenthood had placed them on a tenderer as well as a sadder footing, and as she saw his age and weariness he recognized hers, and both felt a self accusing twinge.

"That's a blamed good cup of coffee," he said by way of relieving the tension that had crept into the situation. "Any one would think you was settin' your cap for me 'stead of us being married for years."

Alida signed. "It's better to end than to begin like this," she said in the faraway voice of one who thinks aloud.

"Why did you say that?" He saw that her eyes were full of tears and claved her. "You ain't thinkin' of divorcin' me, like Mountain Pink done Bosky?"

"Oh, Jim," she said, and her face was all a-quiver. "I never could divorce you, no matter what you done." And then the grim philosophy of the plainswoman asserted itself. "I never can understand why women feed their pride on their heart's blood. It never was my way."

He did not like to remember that he had given her cause for a way. "There's a lot of women as wouldn't exactly regard me as a Merino, or a Southdown either." He gulped the coffee to ease the tightness in his throat.

"There'd be women of no judgment, then," she said, with conviction.

Jim's head was tilted back, resting in the palm of his hand. His profile, sharpened by anxiety, more than suggested his quarter strain of Sioux blood. He might almost have been old Chief Flying Hawk himself as he looked steadily at the woman who had been a young girl and reckless when he had been a boy and reckless, who had paid her woman's penalty and come into her woman's kingdom, who had made a man of him by the mystery of her motherhood and who had uncomplainingly gone with him into the wilderness and become an alien and an outcast.

"These things namanned him as the sight of the fallows and the rope for his hanging could not have done. Shit-ling himself with an affected roughness, he asked:

"What's the matter with you? I've been drinkin' like a beast of an Indian and you give me coffee instead of a tongue lashing."

The color had all gone out of her face. She gasped the words:

"Jim, I dreamed it last night. They came for you!"

She covered at the recollection. "Did they get me?" he asked. There was no surprise in his tone. He spoke as one who knew the answer.

"Yes, the children saw. The noise woke them."

"You mustn't let 'em see when they come. There's a right to a fair start. We didn't get it, old girl."

"The children gave it to us," and she faced him.

"Yes, yes, but we want them to have it from the start, like good folks."

They looked into each other's eyes. The memory of death and gone madness twinkled there a moment, then each remembered:

"You must hurry, Jim. You haven't a moment to lose. I dreamed it was to be tonight—they'll come tonight!"

"The game's all up, old girl. If I had a month I couldn't get away. Morrison's been looking for me over to the Owl Creek range. He's back. Stevens told me yesterday. He'll be heading here soon. The price on my head is a strain on friendship."

"Have the shepherds gone back on you?"

"Yes, curse them! A thousand dollars is big money, and they've had hard luck."

"They deserve it. I hope every herd in the state dies of scab."

"There wasn't a scabby sheep in our bunch. What a sight they were, loaded with tallow! There wasn't one of them that couldn't have weathered a blizzard. They could have lived on their own tallow for a month."

She tried to divert his attention from his lost flock. When he began to talk about them the despair of his loss drove him to drink. She was grieved by the millstones of his going or staying. If he stayed they would come for him, if he went they would apprehend him before he was ten miles from the house.

"Jim, we got to think. If there's a chance in a thousand that you can get away you got to take it. If there ain't the children mustn't know. We got to think it out."

"There ain't a chance in a thousand, old girl. There ain't one in a million. They're circling round in the hills out here now, waitin' for me, like buzzards waitin' for the eyes of a dyin' horse."

She rocked herself, and the clutching fingers left white marks on her face, but the eyes that met his glittered tearless.

"Then there ain't nothing left but to face it like a man?"

"That's all there be." He might have been giving an opinion on a matter in which he had no interest.

"Then there ain't no use in our havin' any more talk about it?"

"I ain't just what you'd call an agreeable subject," he answered, with a sinister humor of the frontiersman who has learned to make a croak of death.

She was tempted to kiss him—they were not given to demonstrations, this pair—then decided it were kinder to him, less suggestive of what they anticipated, not to deviate from their uncomplaining marital routine.

"Do you want your breakfast now?"

"I guess you might bring it along."

And for the same reason that she refrained from kissing him she repressed a desire to wring the neck of a young broiler and cook it for his breakfast, remembering that she had heard they gave folks pretty much what they wanted when they wouldn't want it long. So Jim got his usual breakfast of bacon, uncooked canned tomatoes, soda biscuit and coffee. She sat with him while he ate, but they spoke no more of "them" or of how soon "they" might be expected. She told him that young Jim had pretended that morning that he had a cactus thorn in his foot so that he might have a piece of dried apple. And old Jim in an excess of parental fondness and pride said, "The little liar, he'll get to congress yet!"

But the children were a dangerous topic for overstrained nerves at this particular time, so Alida told Jim that she had put the black hen to set, and she thought they'd have some chickens at last. Jim smoked while Alida washed the dishes, and when Jim's back was turned she examined the lock on the door. A good push would open it. Then she looked at the brown bureau and the recklessness of despair came into her eyes. In the room beyond Jim was reading a two weeks' old newspaper and smoking. He looked like a lazy ranchman taking his ease.

As she went about her household tasks that morning Alida noticed things as she had never noticed them before. A sunbeam came through the shutterless window of the house and writhed and quivered on the wall as if it were a live thing. She read a warning in this, and in the color of the sun, that was red, like blood, and in the whirl of the grasshoppers, that was sinister and threatening. The creeks had dried, and their slimy beds crept along the willows like sluggish snakes. Gouty range cattle bellowed in their thirst, and the parched earth cracked beneath the sun that hung above the house like a flaming disk. Sometimes she sank beneath the burden of it, then she would wring her hands and call on God to help them. They were beyond human power.

SLEEPING CARS OF NEW DESIGN FOR ST. PAUL LINE

Drawing Room Will Be in Center of Car Instead of Over the Trucks, Making Riding Easier and More Comfortable.

The Chicago, Milwaukee & St. Paul, one of the three roads in the United States owning and operating its own sleeping cars, announces an innovation in the construction of equipment for The Pioneer Limited trains between Chicago, St. Paul and Minneapolis.

In the new cars just placed in commission, the drawing room will be in center instead of at the ends of the cars. These are the first cars of such a pattern ever constructed, and the change is made to afford easier riding and additional comfort for travelers using these compartments.

Heretofore drawing rooms have always been over the trucks at either end, which, in the opinion of many, is a rough place to ride. The new cars will be compartments through out. Two of the cars, which have been named Onalaska and Ontonagon, are finished and will be put in service at once.—Chicago Examiner, October 26, 1905.

Progress in Sleeping Cars.
On one of the Chicago railroads (Chicago, Milwaukee & St. Paul Railway) there will be introduced within a few days a new style of sleeping car which will be recognized at once as a great improvement.

The improvement consists in locating the drawing rooms in the center of the car instead of at the ends as at present. As these drawing rooms are often taken by people who are infirm or ill, such people are not much benefited if they must ride over the trucks. The noise and vibration are hardly offset by the luxuriousness of their immediate surroundings.

Although some of the new cars will be used at once, many more are to be constructed, and that, of course, will require time. When the new service is thoroughly in operation there will be a luxury in American railroad travel never known before and people will be able to bear railroad transportation who otherwise could not survive it.

Of course, when such service is the best in America it means that it is also the best in the world.—Chicago Chronicle, October 26, 1905.

An Innovation in Sleeping Car Equipment.

New compartment sleeping cars for service between Chicago, St. Paul and Minneapolis in The Pioneer Limited trains of the Chicago, Milwaukee & St. Paul Railway, are under construction. The new cars are a departure from any compartment cars heretofore built in this respect, that formerly drawing rooms have been located at the end of the cars "over the wheels," whereas in the new cars, the drawing rooms are in the "center" of the cars. Two of the new cars, the "Onalaska" and the "Ontonagon" will be placed in service on "The Pioneer Limited" at once. They are the first cars of this pattern ever built.

THINK SIR THOMAS IS MARRIED

Story Is Told That He Was Wed to Scotch Girl Years Ago.

Boston, Nov. 14.—A London special cablegram says it is reported among those who know Sir Thomas Lipton well that he is a benedict, having been secretly wed some years ago to a Scotch lassie in humble circumstances before he dreamed of reaching such heights of eminence as he enjoys at present. People who knew Sir Thomas in his youth say that the facts are well known to certain people. Sir Thomas himself hasn't a word to say on the subject. Announcement is made that he is seeking a country seat in Ireland, either in Wicklow or Meath. As to whether he will acknowledge his reputed wife and bring her there is not known.

MIDSHIPMAN IS HELD PRISONER

Cadet Accused of Killing Opponent in First Fight Awaits Trial.

Annapolis, Md., Nov. 14.—Midshipman Minor Meriwether, Jr., of Lafayette, La., who was the opponent of Mississippi James R. Branch in the first fight in which the latter received fatal injuries, is under arrest in his quarters. Midshipmen A. W. Fitch and Leigh Noyes, who were referee and timekeeper respectively in the fight, and four others who acted as seconds to Meriwether and Branch will be summoned as witnesses in the court-martial proceedings which have been ordered. Those connected with the fight other than the principals will not be tried by court-martial, but will be punished by the superintendent.

SAY MAYOR IS A HORSE THIEF

Requisition Is Made on North Dakota Governor for Accused Executive.

Helena, Mont., Nov. 14.—Governor Toole has issued on request of the Montana Stock Growers' association a requisition on Governor Seales of North Dakota for William H. Denny, mayor of Williston, N. D., charging him with being connected with a gang of alleged horse thieves, who, it is claimed, have stolen more than 1,000 head of horses. Sheriff Griffith deposed for Bismarck to present the papers to Governor Seales and, if honored, will bring Denny to Valley county for trial. Should be convicted it is expected that numerous other arrests will follow in both states, including several men in official positions.

SILVER JUBILEE OF FEDERATION

President Gompers Calls Delegates to Order at Meeting in Pittsburgh.

LABOR OPPOSES GOING TO WAR

Veteran Chieftain Hopes to See Wage Workers So Well Organized That They Will Refuse to Bear Arms Against Their Fellows.

Pittsburgh, Nov. 14.—Organized wage earners' greatest body, the American Federation of Labor, opened its silver jubilee convention in this city Monday. When President Samuel Gompers, the veteran labor chieftain, rapped with his gavel, nearly 500 delegates from the United States, Canada and Europe prepared for the business of what is expected to be one of the most important meetings ever held by the federation.

Chief in importance in the proceedings was the annual report submitted by President Gompers, in which he reviewed the history of the organization during the last year, made suggestions for its future welfare and replied vigorously to the criticisms of opponents of trade unions. Treasurer John B. Lennon declared in his yearly report that while the federation has suffered a loss in membership, this condition is neither unusual nor a valid cause for alarm.

In the course of his report President Gompers suggested the hope that wage workers eventually will become so well organized that when other means to prevent wars have failed they will refuse to bear arms against brother workmen of another country "for the purpose of serving the machinations of tyrants, whether political or commercial." He further declared that finance had been largely dethroned from its all-controlling power over labor and industry, and that the policy of trade unionists to resist wage reductions has served as a preventive of industrial panics. Among the points and recommendations made in the report are the following:

President's Recommendations.

At the end of the fiscal year, Sept. 30 last, there were affiliated with the American Federation of Labor 118 international unions, 33 state federations, 599 central labor unions and 1,044 local trade and federal labor unions. The 118 international unions are composed of about 27,000 local organizations.

Central labor bodies should establish trade union schools where the principles of trade unionism may be taught.

A legal department of the federation should be established for the purpose of protecting the rights of trade unionists in the courts.

There should be a more general movement to have all trade unions establish a system of sick, death, unemployed and superannuation benefits.

President Roosevelt is praised for bringing to a close the war between Russia and Japan.

Chinese should be excluded from America and its possessions.

The issuance of injunctions as we have witnessed them in our country cannot be defended in either law or morals.

The Panama canal should be the result of American enterprise, genius and labor.

Would Organize Women Tailors. The organization of women tailors should be carried on with vigor.

Fair-minded employers should not be made to suffer on account of jurisdictional disputes between unions.

Industrial unionists are seeking the disruption of organizations connected with the American Federation of Labor because the latter has refused to have the movement dominated by "fantastical doctrines."

There must be closer affiliation between organized workers of the world. The petition of the people of Porto Rico for a larger share of self-government should be supported.

The struggle of the printers for the eight-hour day "must be crowned with absolute victory."

Secretary Frank Morrison's report showed that the receipts for the year were \$207,417, a decrease over 1903 of \$40,355. There were 287 charters issued during the year, as compared with 1,333 during 1903. Reports from ninety-nine international organizations and a small number of local unions show that there were 1,157 strikes during the past year, costing \$2,517,291 and involving 107,268 persons. There were 458 strikes won and 210 lost.

Over Half a Million SATISFIED CUSTOMERS

Do you think such an enormous business could be built up and continually increased, if our goods did not have exceptional value and merit? Do you think we could hold the trade of half a million people, if our reputation for doing exactly what we say wasn't firmly established? Do you think U. S. Senators, Foreign Ambassadors, Bankers, Business and Professional men in every section of this country would keep on using HAYNER WHISKEY if it wasn't all right? Do you think doctors would recommend it and hospitals use it, if it wasn't absolutely pure and unadulterated? Just think these things over carefully and then send us a trial order. Your money back if you are not satisfied.

AGREES TO REFUND COIN TO CONCERN

Mr. McCall Will Reimburse
New York Life If Ham-
ilton Refuses.

CONSIDERS IT PERSONAL DUTY

Statement to Board of Trustees Car-
ries a Pledge That \$235,000 Ad-
vanced to Laymen Will be Returned
to Treasury by Dec. 15.

New York, Nov. 14.—John A. McCall, president of the New York Life Insurance company, Monday assured the legislative investigating committee that he would refund to the treasury of the company \$235,000 of the company's money in the possession of Andrew Hamilton, the lawyer who had charge of the legislative matters for the concern, provided Mr. Hamilton did not make restitution.

In addition Mr. McCall was ordered to demand Hamilton's return from Europe to testify before the committee, and promised to comply with the order. He also was ordered to demand that Mr. Hamilton make an accounting for all the money expended by him, and of the balance which he owes the New York Life. Mr. McCall emphatically denied that it was the policy of his company to have Mr. Hamilton remain aboard until after the conclusion of the investigation, and said that he would like very much to have the lawyer return, though he doubted if he was physically able to do so. He did not know exactly where Mr. Hamilton was, but thought he might be found either in Paris or Nautheim.

Promises to Return Money.
Mr. McCall submitted the following statement which he said he had made to the trustees of the New York Life Insurance Company:

"To the Board of Trustees—In my testimony before the special legislative committee of this state, referring to the advancement on account of recent purchases of the company's annex property in the block bounded by Elm, Leonard, Center and Worth streets, I stated there were unsettled bills of 1905 outstanding of Judge Hamilton which might be regarded as offsets, leaving net amount due about \$70,000. I desire to place on our record an additional statement that if the said sum of \$235,000 advanced to Judge Hamilton is not repaid by him to the company on or before Dec. 15, 1905, then it will be my duty and obligation as expressed in my testimony aforesaid to pay to the company said amount of \$235,000 on or before Dec. 31, 1905.

"John A. McCall."
Would Lobby Openly.
"Was any action taken by your board of trustees or any suggestion made in the board that, exclusive of the \$235,000, there were hundreds of thousands of dollars paid to Judge Hamilton for which you have nothing but his receipt?" asked Mr. Hughes. Mr. McCall said it was not considered.

Mr. McCall offered in evidence a resolution adopted by the board of trustees of the New York Life Insurance company on Oct. 18 last. It stated that the board had learned from the testimony before the legislative investigating committee that the executive officers of the company had expended large sums annually to oppose legislation believed to be against the interests of the policyholders, and that for these sums no vouchers or receipts were issued and that the payments were never brought before the board of trustees.

It was therefore resolved by the board that such opposition to legislation should be open and public, so as to place it above criticism, and that regular vouchers and receipts should be issued for such payments, setting forth in detail the services rendered.

Equitable Also Lobbies.
That the New York Life was not alone in influencing legislation, and that the Equitable sometimes spent money to oppose laws in which the company had no interest, though individual officials might have, was shown by the testimony of John McGuinness, head of the purchasing department of the Equitable. He produced letter books containing letters concerning legislation written by Thomas D. Jordan, former comptroller of the Equitable, to Andrew Hamilton and A. C. Fields. Those memoranda covered periods from 1898 to 1902 and during the last session of the legislature. They constituted a series of instructions to Fields as to what course he must pursue relative to every bill that appeared in the legislature.

One letter referred Fields to a bill relative to taxation which Mr. Jordan instructed Fields to have killed if it affected Suffolk county. Mr. Hughes who had been reading the memoranda, stopped here and asked the witness what interest the Equitable had in Suffolk county. The witness said he had not sufficient information to clear this point, but when asked if it wasn't because James H. Hyde had a residence there, replied he thought it was.

Requisites for Successful Visit.
Always go to a house well equipped with little necessities and conveniences. A guest should have her own writing materials. Every member of the family may be asking for the library pen and ink just when you want to write your home letter. A miniature sewing outfit and shoe polish rags, etc., are essential also.

Samples of Enthusiasm.
Michael Angelo was so filled with enthusiasm in his art, so afraid that money might taint his brush, that he refused to accept any pay whatever for his masterpieces in the Vatican and St. Peter's. Napoleon's enthusiasm banished the word "impossible" from his dictionary.

Look to Future Lumber Supply.
The rules and regulations adopted by a large lumber company in Louisiana promise to so cut its timber that it will never be exhausted, only the surplus timber being cut and steps being taken to plant all cleared areas in young trees, so that there will always be a supply for the mills, and it would be well if this policy were generally pursued as a measure of protection against inadequate supply in the future.
